

DOUBLE ELIMINATION 8

<<<<<< LOSERS BRACKET

WINNERS BRACKET >>>>>>

1 When your entries are complete, randomly pick a team and put it in Space #1. The next goes to Space #2. Continue picking teams and placing them on consecutive numbered lines. When you have placed all teams, fill in the remainder of lines with "Byes."

2 Byes are treated as any other team for purposes of charting, except they lose every match. It is possible for a bye to play a bye. In that case the bye advances one more space.

3 Play out the chart, following the coded matches and arrows, until you have reached both extremes.

4 Winner of both sides play for the Championship. The Losers bracket team must defeat the Winners bracket team in two consecutive matches to win.
